**FOR IMMEDIATE RELEASE**

## **DecisionOne Ranked Among North America's Top 500 Technology Solution Providers by Everything Channel**

**Devon, PA - June 7, 2010.** DecisionOne announced today that it was recognized by Everything Channel as one of North America's top technology solution providers. Named to the prestigious VARBusiness 500 list, DecisionOne ranked #186 in the 16th annual ranking, up 25 spots from 2009.

"We are very pleased to have made the VarBusiness 500 list for the fifth year in a row," said Ken Murray, Senior Vice President of Sales and Marketing at DecisionOne. "Our rise in the rankings vs. 2009 is a direct result of our focus to become a more customer-centric growth company. Through engineered services, we take the time to understand our clients' business needs, and then provide the most comprehensive and cost-efficient technology support solution. The result is that our clients achieve positive business results and a greater return on their IT investment."

As a single-point-of-contact, multi-vendor service partner, DecisionOne offers a flexible suite of onsite, remote and logistics service capabilities that help organizations optimize IT system availability, while reducing their investment in costly service delivery infrastructure or IT staff.

The VAR500 annual ranking lists the leading technology integrators and solution provider organizations in North America based on gross worldwide revenue of hardware and software sales, as well as earnings from professional and managed IT services.

"The VAR 500 is the who's who of the solution provider community," said Kelley Damore, VP, Editorial Director, Everything Channel. "In companies large and small, the VAR 500 are considered integration experts, trusted business advisors and invaluable partners. We are honored to compile this list and represent this audience."

### **About DecisionOne**

DecisionOne is a growth-orientated company and premier partner to IT equipment manufacturers, service providers and enterprise customers - delivering reliable, cost effective maintenance and support solutions. Leveraging a comprehensive North American direct service footprint and an engineered services framework, DecisionOne supports data centers, desktop/notebook environments, networks, printers, and specialized equipment. The company's full complement of onsite, remote and logistics services provide a multi-vendor, OEM-neutral option for supporting diverse IT environments.
