FOR IMMEDIATE RELEASE

DecisionOne Ranked 40th on CDN Top 100

Devon, PA – May 16, 2011. DecisionOne announced today that it has been ranked 40th on the Canadian Dealer News (CDN) Top 100 IT Solutions Providers list for 2010. Each year, CDN, Canada's leading IT channel publication, ranks major Canadian IT solution providers according to their annual revenue. This is the fourth consecutive year that DecisionOne has made the list, up four slots from #44 in 2009.

"We are pleased that DecisionOne was recognized by CDN as one of the Top 100 IT solution providers in Canada for 2010," said Neal Bibeau, CEO and President, DecisionOne. "This award validates our commitment to growing our global and Canadian business. It demonstrates that our Canadian customers are continuing to place their trust in us to not only address their IT requirements, but to help them improve their overall business results through technology infrastructure services."

CDN, a bi-monthly Canadian reseller magazine, is dedicated to providing resellers with timely, comprehensive coverage of news, events and issues that affect their businesses. The annual list promotes successful solution provider organizations of all sizes and specialties through various rankings and categories.

About DecisionOne

DecisionOne, a division of Glodyne Technoserve, is one of the largest independent IT infrastructure service providers and supports many of the world's leading information technology vendors. We offer full IT lifecycle solutions to assess, design, implement and operate technology infrastructure. Our integrated onsite, remote and logistics capabilities provide a turn-key solution to ensure systems performance, client satisfaction and service quality. We support multi-vendor IT environments ranging from: the data center and network; to desktop/notebook and mobile computing; to printers, kiosks and specialized IT equipment.
