## **New Global Telecom, DecisionOne Partner On Nationwide Field Services Support for 6DegreesIP**

**ORLANDO, FL - October 9, 2006** - New Global Telecom (NGT), the leading provider of wholesale hosted VoIP solutions, announced today at the COMPEL PLUS Fall 2006 Conference and Expo a partnership with DecisionOne to offer nationwide field services for its 6DegreesIP customer community. 6DegreesIP is a branded suite of voice products available to service providers delivering retail solutions to business and residential customers.

With this agreement, DecisionOne will provide VoIP Site Assessments and Network Assessments, VoIP Installation services, and Post-Installation Support services for NGT service provider partners.

"For VoIP services to reach the point of mass adoption, we need to further assist our service provider partners and standardize around business-class installations," stated John Guillaume, senior vice president, sales & marketing, NGT. "We plan to leverage our institutional know-how and combine it with DecisionOne's nationwide footprint of service locations and support capabilities to deliver a repeatable VoIP processes that customers can rely on."

"NGT is the model partner as both an aggregator of VoIP best practices and an integrator of business processes," stated Steve Martin, chief operating officer, DecisionOne. "We are pleased to work with NGT in providing immediate national VoIP installation and support for NGT service provider partners and the marketplace."

NGT's Field Services supports both fully hosted VoIP solutions as well as business trunking (aka SIP trunking) services. NGT's Field Services works in conjunction with NGT's recently announced Network Performance Platform, which focuses on standardizing service deployment to ensure consistent, predictable delivery of business-class voice services.

### **About New Global Telecom**

New Global Telecom, Inc. is the leading provider of wholesale hosted VoIP and trunk-based solutions and outsourced network management services. Through its New Global Telecom and General Telecom brands, the company delivers IP and TDM switch partitioning, outsourced network operations and VoIP services to carriers and Service Providers, including CLECs, ISPs, VPN providers and VoIP-centric companies worldwide. NGT's 6DegreesIP product suite of managed wholesale VoIP products offers

Service Providers a highly effective, comprehensive solution to address residential and business end-user needs. 6DegreesIP includes a complete range of telephony features, extensive local & long-distance calling footprint, worldwide conferencing capability, E911 service, training and other support. TDM-to-IP and IP-to-IP switching services are also available. For more information, please visit [www.ngt.com](http://www.ngt.com).

### **About DecisionOne**

Headquartered in the Philadelphia suburb of Devon, Pennsylvania, DecisionOne delivers technology support services to commercial enterprises, government agencies, Original Equipment Manufacturers (OEMs), outsourcers, and resellers throughout North America. The company's footprint of service locations and centralized support capabilities throughout the U.S. and Canada enable DecisionOne to provide local, reliable, cost-effective solutions that address needs at every point along the technology support lifecycle - from initial planning and assessment, to installation and maintenance, to asset disposal and/or reclamation. DecisionOne takes care of your technology so you can take care of business. More information about DecisionOne can be found on the web at <http://www.decisionone.com>.
